		Subtotals:	$ -	$ -	$ -	$ -
					Total Cost	$ -
			SAR Team Share:		%	$ -
			TNRD Share:		%	$ -
						$ -
						$ -

Important Notes:

1. Cost-shared ratios are usually 50 per cent TNRD and 50 per cent SAR Team. Some exceptions apply when equipment, vehicles and training are used for Road Rescue. The TNRD will only fund that portion of costs related to Search & Rescue based on call out history.

2. If the TNRD cost-share exceeds $50,000, an external audit and audit documentation may be required. The TNRD reserves the right to request such an audit.

3. Claimed amount (F) equals the total TNRD share of the claimed amount (D) <u>or</u> the maxiumum approved funding (E), whichever is the lesser amount.
