

## Thompson-Nicola Regional District

# Disposal of Flood-Damaged Materials

**For Immediate Release (May 13, 2017):** The TNRD will be waiving tipping fees for homeowners who sustained property damage as a result of the recent flooding events. The fee waiver will be in effect at all TNRD solid waste facilities until **June 11, 2017**.

Only waste materials generated as a direct result of the flood will be waived. At the waste disposal site, residents will be required to sign a declaration stating their name, phone number, and address of flooded property.

Customers must notify the site attendant and complete a declaration form prior to unloading. Attendants will direct customers where to unload. Please be advised that all site rules and regulations remain in effect and hours of operation remain unchanged.

The Heffley Creek and Lower Nicola Landfills are the only two TNRD facilities that will accept rocks, clean soil, sand, gravel, etc. This material is not considered to be garbage and cannot be handled at TNRD waste transfer stations (landfills only).

If you have specific questions about accepted materials at the TNRD waste management facility nearest you, please contact the TNRD Environmental Services Department at 1-877-377-8673 or [recyclenow@tnrd.ca](mailto:recyclenow@tnrd.ca).
