## Update for Loon Lake residents: Fridge and Freezer Pickup Service in Loon Lake

### Information Bulletin – July 25, 2017

During yesterday's community meeting in Cache Creek, there were several questions about a fridge and freezer pickup service in the Loon Lake area. The TNRD will be offering a curbside fridge and freezer pickup service for a time period to be determined once all of the evacuation orders have been lifted.

Once all of the evacuation orders have been lifted, the TNRD will provide information about this service. Please do not call the TNRD to find out about dates because we cannot determine dates until all evacuation orders have been lifted.

We will keep you up to date as the situation changes.
