## Update for Loon Lake Residents: TNRD will Waive Tipping Fees for Contaminated Food

### Information Bulletin – July 25, 2017

During yesterday's community meeting in Cache Creek, there were several questions about whether or not the TNRD would waive tipping fees for contaminated food that will need to be deposited at the Loon Lake transfer station.

We hear your concerns about depositing contaminated food and we will waive tipping fees for a two-week period, once all of the evacuation orders have been lifted.

Once all of the evacuation orders have been lifted, we will provide more information about fees and hours for the Loon Lake transfer station. Please do not call the TNRD to find out about dates because we cannot determine dates until the evacuation orders have been lifted.
