Preparing for Flooding in the TNRD

For Immediate Release (April 27/18): As snowpacks melt and water levels rise, the Thompson-Nicola Regional District is reminding residents to consider the following tips and information to stay safe:

- Floods can be slow or fast-rising, but generally develop over a period of hours or days.
- Residents can stay informed of streamflow advisories. Check with [River Forecast Centre](#) for updated information.
- Drive carefully — if you are planning to travel, follow current highway conditions and any road closures. Check [DriveBC](#) before you set off.
- Never try to drive through floodwater. Water can be deeper than it appears, and levels can rise very quickly.
- If you are going to be camping or walking, also avoid small creeks and rivers as their channels tend to be narrow and can fill up quickly. Also, eroded banks result in unstable ground. Most importantly, keep children and pets away from stream banks.
- Stay alert for changing conditions, particularly if you live in low-lying areas or near waterways.
- Always follow the instructions of emergency officials.
- It is a good idea to organize your emergency kit containing important documents, prescription medication, a flashlight and first aid kit.

Emergency preparedness information can be found at [PreparedBC](#)

To report severe flooding in your area, contact the Emergency Management BC Emergency Coordination Centre Reporting Line 1.800.663.3456.
