## PRESS RELEASE

### LEARN ABOUT RESIDENTIAL WATER METER INSTALLATIONS IN SPENCES BRIDGE

**Kamloops, BC—February 12, 2020**— Spences Bridge residents can learn about the ins and outs of residential water meter installations at an upcoming public information meeting being held on Wednesday, February 19 from 6:30-8:30 pm at the Archie Clemes Community Hall (3641 Hwy #8).

This is the seventh meeting to be conducted as water meters are being installed in all 11 TNRD-administered water systems over the next couple of years.

TNRD staff will be on hand to discuss the process, how installations will work, answer any questions and discuss the next steps. There will also be information on the utility system and general water conservation.

ICONIX Waterworks has been contracted by the TNRD to supply and install the new metering technology for all commercial and residential properties.

The TNRD is improving water system infrastructure to provide the community with better water conservation and leak detection information, reduce the cost of operation, and ensure fair billing and access to grant funding. One major part of the Water Metering Program is the installation of water meters in all developed properties in the system. For additional information about the TNRD Water Metering Program, visit <https://tnrd.ca/watermeters>.

For more information, contact Renata Harry, Project Manager by phone at 250-377-6301 or email [rharry@tnrd.ca](mailto:rharry@tnrd.ca).
